Building proceeds apace, both for native and foreign requirements. The German Bank is building, or rather having built for it, a fine new house adjoining the Globe Hotel, the property of those excellent economists the Jesuits. No less than three private residences are in progress outside the concession limits, but near enough to enjoy the amenities of Victoria Park and the institutions which flourish under the

shadow of the municipality. The German Club was inaugurated with the customary libations on April 1st in the temporary quarters in the Aster House Hotel. A long felt want is thus supplied, for the German community has been increasing rapidly during the last few years, and German is now the preponderant nationality. The new club has powerful financial backing, and sooner or later t will add conspicuously to the improvements

of the settlement. Our enterprising townsman Mr. Hermann Mandl, who recently returned from a visit to Japan, has just been decorated by the German Government with the Prussian Order of the Crown of the third class in recognition of the zeal and espacity he has displayed in pushing German industries and his own interests in China. Such an honour has never, it is said, been conferred on any merchant before, and it shows how much importance the German Government attaches to the extension of the national trade,-Daily News correspondent.
